

Aged Care Association NZ has a partnership with insurance and risk advisers Aon New Zealand to provide a range of insurance packages to ACANZ members. This cover is for individual nurses, working within aged care facilities.

On-going changes within the regulatory environment, increased scrutiny on competencies and higher professional standards of practice mean that today’s health professional faces increased risk in their everyday activities.

Both legislative and social changes have made it necessary for you to take responsibility for your own professional protection and financial security.

Insurance or indemnities provided by your employer is nice to have, however it can leave you short on protection, restrict your involvement in the management of the claim, complaint or investigation and create a potential conflict of interest and your ability to independent representation.

POLICY BENEFITS

- Portable ‘Anywhere in New Zealand’ policy (there is no cover for work outside of New Zealand)
- Nil Excess on claims (Malpractice)
- Past activities covered (excluding any existing claims or complaints known to you prior to joining)
- Underwritten by trusted insurer Chubb - financial strength rating of A- (Very Strong) issued by Standard and Poor’s.

GENERAL INFORMATION

Liability policies (excluding General/Public Liability) are '**claims made**' policies. This means that there must be a policy in place at the time you become aware of a claim, for the policy to respond.

This is subject to a **retroactive date** which is shown on your certificate. The retroactive date is the date you had cover incepted for the first time. The policy will only respond to claims arising from business activities performed after that date. Your retroactive date will remain the same provided you have had **continuous cover** in place year after year. If there is a break in continuity your retroactive date will become from the date the new cover started.
